SUBJECT: ANNOUNCING AN OFFICIAL LAUNCH OF AAe SMS WEBSITE

General.

The time has come to announce an official launch of AAe SMS Website, this platform establish to easy the AAe staffs obtain information, share safety strategies plan, key person of SMS members, SMS index on Safety Performance Indicator, ALoSP and online safety voluntary hazards reporting.

Safety Review Board members (SRB) chaired by Accountable Executive prefer all staffs to utilise this unique platform to raise concern on SMS aspect.

AAe staffs and customers may assess the website by scanning QR Code or logon to <https://aaesafetymanagementsystem>.

This website maintain by Safety section with directive from Accountable Executive and Safety Review Board members.

Benefit from the Website:

1. Provide online present 24/7 and 365 days to all AAe staffs and customers even outside of business hours, it offers the user convenience as they can access the information they need in the comfort of their own, with no added pressure.
2. Information exchange - a website provides a quick and easy way of communicating information.
3. These are useful tools to share crucial information about our SMS implementation and activities.
4. Websites, in general, are great ways in providing a place that potential customers can be referred to. It shows SMS commitment what our company is about, what it has achieved and what it can achieve in the near future.
5. Bolsters our credibility, able to develop a reputation as a great workplace through worker safety commitments and improve perception both with customers and potential recruits.
